

I Wish

(Inspired by "I Wish Grandpas Never Died" Riley Green)

I wish plane rides weren't silent and more nights were.
I wish kids never died before their parents.
I wish good people did more so bad guys did less.
I wish grandpas never died.
I wish families and hearts never broke.
I wish governments weren't political, and fires never burned homes.
I wish guns didn't fire and that all stars were shooting.
I wish grandpas never died.
I wish no one fell asleep feeling alone.
I wish good memories and childhood dreams were never lost.
I wish Santa was real and cancer was fake.
I wish grandpas never died.
I wish the moon was never waning, and tasty foods were healthy.
I wish it was never cloudy at sunset.
I wish loving people wasn't painful.
I wish Alzheimer's had a cure. I wish brains didn't control minds.
I wish life and death were more black and white. I wish Vernon knew me now.
I wish grandpas never died.
